

Anand Raj

West Bengal, India | Phone: 9508875352 | Email: anandrajanand573@gmail.com

Professional Summary

Detail-oriented Data Science student with strong foundations in Python, Dsa, data preprocessing, EDA, and problem-solving. Skilled in analytical thinking project execution, and teamwork.

Education

B.Tech, CSE (Data Science) (2022-Present), Haldia Institute of Technology-CGPA 76

Higher Secondary (2022) 77.8% | Secondary (2020), 91.4%

Technical Skills

Programming: Python (Pandas, NumPy, Matplotlib), Java, C, MySQL

Core: Data Structures & Algorithms, OOP

Internships & Training

Data Science & AI Intern Embrizon Technology (July-Sept)

- Worked on data preprocessing, analysis, and NLP tasks
- Completed project-based learning modules with certification
- Gained hands-on experience with data workflows.

Projects

Water-Borne Disease Detection System (Smart India Hackathon)

- Built predictive workflow using environmental and water-quality data
- Responsible for data collection, preprocessing, and preliminary EDA

Financial Sentiment Analysis of Stock Market

- Conducted sentiment analysis using NLP preprocessing and scoring.
- Certified project under Embrizon Technology

Languages: Hindi, English

Strengths: Problem-solving Analytical Thinking Teamwork Communication
